Portfolio 1 – 2 - 3

CORE COMPETENCIES

- Change Management
- Great Communication Skills
- Solid Research Background
- Training and Development
- Technology Support/Management
- Change and Integration Management
- Strategic Planning and Development
- Complex Problem Solving
- Academic Leadership

CAREER HIGHLIGHTS

Sustainability Leadership: A demonstrated track record of leading initiatives and projects in the field of sustainability, driving positive environmental and social impact.

Cross-Disciplinary Collaboration: Proficient in orchestrating collaborative efforts across diverse disciplines, fostering a holistic approach to problem-solving and innovation.

Innovative Seminar Design: Skilled in designing and delivering innovative, participative seminars that engage multi-disciplinary audiences and drive knowledge dissemination.

Global Perspective: Possesses a broad global outlook shaped by experience in various international academic and research environments.

Effective Communication: Demonstrates exceptional oral and written communication skills.

Editorial Expertise: Proven ability to contribute as an editor for reputable academic journals, indicating a deep understanding of research standards and publication processes.

Research Prowess: Recognized for a substantial portfolio of over 50+ international publications, reflecting high expertise and contributions to the academic community.

Technical Background: Research writing; Theory Building; Stata, Lisrel, Amos, Origin Lab, Tableau; Matlab; MCDM

PROFILE SUMMARY

Accomplished Assistant Professor, ranked among the top 2% of the world's scientists by Elsevier BV and Stanford University. With an extensive background in strategic management and sustainability and a proven track record as a leader in the field, brings a wealth of experience to the table. **Known for solid ability to tackle complex business challenges objectively with expertise extends to staging innovative and participative seminars in multi-disciplinary contexts, a skill that underlines commitment to cross-functional collaboration and knowledge sharing.** Despite being a non-native English speaker, possesses exceptional oral and written presentation skills of the highest caliber. **BACKGROUND DETAILS** - Dr. Ikram's international influence is evident through his over 60 publications, demonstrating his depth of knowledge and contributions to the academic community. Held significant editorial roles, including Guest Editor of Environmental Science and Pollution Research-SCI, an Academic Editor of PLOS ONE, and a Review and Associate Guest Editor of Frontiers in Environmental Sciences-SCIE. Dedication to advancing the field is further underscored by his role as a review board member for various esteemed journals. With a Postdoc associate background at the College of Management, Institute of Business Analytics and Supply Chain Management, Shenzhen University, China, Dr. Ikram's global perspective enriches his approach to education, research, and leadership. I have successfully completed *Future of Sustainable Business: Enterprise and the Environment* course (August 2024 batch), an 8-weeks premium program designed by the **Smith School of Enterprise and the Environment - University of Oxford, UK**. Dr. Ikram is Certified Management & Business Educator (CMBE), London, UK.

PROFESSIONAL EXPERIENCE

AL AKHAWAYN UNIVERSITY | IFRANE PROVINCE, FÈS-MEKNÈS, MOROCCO

Assistant Professor

August 2021 - Present

- As an Assistant Professor, actively involved in shaping a curriculum that aligns with the highest academic standards and incorporates innovative teaching methodologies.
- Provide mentorship and guidance to students, aiding them in their academic and personal development journeys.
- Multi-task and extend responsibilities beyond the classroom, encompassing community engagement initiatives that foster meaningful connections between the university and the broader community. Also, participate in outreach and collaborative projects, contributing to positive societal impact.

SHENZHEN UNIVERSITY, CHINA.

Postdoc

December 2019 – November 2021

- Under the supervision of Dr. Qingyu Zhang, is a Professor and Director of the Research Institute of Business Analytics and Supply Chain Management
- Worked under the guidance of an accomplished Professor; contributed innovative insights to ongoing research initiatives and enhanced the depth and breadth of research outcomes, focusing on practical implications and theoretical advancements.
- Interacted with Dr. Zhang gave me a unique chance to observe and learn from an esteemed academic, influencing my growth as a researcher.
- As a result of my collaboration, contributed to the publication and dissemination of research findings. The guidance and mentorship provided by Dr. Zhang were instrumental in shaping research papers that added value to the academic discourse.
- Collaborating with the Research Institute of Business Analytics and Supply Chain Management exposed me to interdisciplinary engagements. These interactions enriched my understanding of diverse perspectives and their contributions to the broader research landscape.

Editorial Board**September 2024 – Present**

- Help shape and refine the journal's focus, scope, and objectives, ensuring alignment with emerging trends in sustainability research.
- Oversee the peer-review process, select qualified reviewers, and provide final recommendations on manuscript acceptance or rejection.
- Maintain high scholarly standards by evaluating the rigor, originality, and relevance of submitted manuscripts.
- Uphold ethical guidelines, resolve potential conflicts of interest, and ensure adherence to best practices in scientific publishing.
- Identify key topics, trends, and research gaps; propose special issues or themed collections that advance the journal's impact.
- Encourage a diverse pool of reviewers and authors, offer constructive feedback, and foster a supportive environment for academic discourse.
- Collaborate with the publisher to promote the journal, represent it at conferences, and expand its global reach.
- Regularly review journal metrics, gather feedback from the academic community, and suggest improvements to editorial policies and processes.

FRONTIERS IN SUSTAINABILITY

Review Editor**October 2022 – October 2024**

- Play a pivotal role in advancing the journal's mission to facilitate greater engagement of scientists in sustainability conversations while ensuring the open accessibility of research findings to fellow researchers, industries, and policymakers.
- Responsibilities involve overseeing the review process for research and policy papers that align with the UN Sustainable Development Goals. By meticulously reviewing submissions, and ensuring the high quality and relevance of published content, thereby facilitating the dissemination of actionable insights to address environmental, resource use, and sustainability challenges.
- Actively contribute to shaping a multidisciplinary discourse. Bringing together diverse fields of expertise aids in addressing intricate challenges that demand comprehensive insights and collaborative problem-solving.
- Multi-tasks and involved in conducting thorough peer reviews of submitted manuscripts. This entails evaluating the rigor, methodology, and significance of research contributions, contributing to the overall quality and credibility of the journal's content.

PRME CHAPTER AFRICA

UN Chapter Steering Committee (CSC) member

June 2022 – October 2024

- Within the Africa Chapter, contributions are dedicated to providing PRME regional signatories with a robust platform for collective progress. By actively engaging with fellow committee members. Also, contribute to steering discussions, initiatives, and actions that align with the PRME principles and promote responsible management education.
- Lead and facilitate discussions and exchanges around shared interest and concern topics. Through strategic dialogues, foster a conducive environment for PRME signatories to collaboratively address challenges, explore opportunities, and share innovative practices in responsible management education.
- Participate in the ideation and development of innovative approaches that drive the advancement of responsible management education. By encouraging the exploration of novel methodologies, frameworks, and strategies. Also, contribute to enriching the learning experiences of students and professionals across the African continent.

PUBLIC LIBRARY OF SCIENCE (PLOS)

Academic Editor**August 2022 – December 2024**

- Champion the ethos of rigor and excellence in scientific research, and contribute to publishing high-quality research that meets stringent standards and drives the boundaries of knowledge in diverse disciplines.
- Lead and play a significant role in promoting open access to scientific knowledge and contributing to greater accessibility, visibility, and impact of research outcomes.
- Effectively contribute to the dissemination of research that has the potential to create tangible societal impact. By making valuable scientific insights accessible to a broad audience. Also, participate in the dialogue that informs decision-making and drives progress.

EMERALD AND EFMD OUTSTANDING DOCTORAL RESEARCH AWARD JUDGING PANEL

Emerald Publisher**March 2022 - Present**

- As an integral part of the Emerald Publisher team, committed to upholding the highest standards of excellence in recognizing and promoting doctoral research that aligns with the SDGs. The critical role involves meticulous evaluation and curation of research contributions that exemplify the goals and values of this impactful program.
- Represent a framework for transformative global change. By supporting this award program, actively acknowledge and celebrate research that addresses pressing societal issues and offers innovative solutions to create a more sustainable and just world.
- Play a vital role in amplifying the impact of doctoral research. By recognizing and showcasing research that aligns with the SDGs. Also, contribute to elevating the visibility and influence of scholarly work that has the potential to drive meaningful change.

FRONTIERS IN ENVIRONMENTAL ECONOMICS AND MANAGEMENT

Review Editor**April 2022 – April 2024**

- As a Review Editor, responsibilities encompass curating and evaluating cutting-edge research that showcases innovative economic and management approaches to address complex environmental issues.
- Actively contribute to evaluating research that transcends traditional disciplinary boundaries, fostering holistic solutions to intricate sustainability challenges.
- Consistently maintain standards by ensuring that published articles uphold the highest level of quality and adhere to reproducibility criteria, thus contributing to the credibility and impact of the research.

SUSTAINABILITY MDPI

Section Editorial Board (SDGs of Sustainability)**December 2021 - Present**

- As a member of the Section Editorial Board, comprehensively examine the bioeconomy concept. This includes tracing its evolution from resource substitution to biotechnological innovation while emphasizing waste reduction and heightened efficiency as pivotal objectives.
- Plays a pivotal role in articulating the bioeconomy's scope and potential. Involvement extends to delineating the European Commission's definition of the economy—leveraging renewable biological resources from land and sea—to produce energy, food, and materials while reducing reliance on non-renewable resources.
- Within the "Bioeconomy of Sustainability," contributions extend to evaluating the environmental implications of transitioning towards bio-based alternatives, by showcasing the deployment of bio-based energy and materials. Also, participate in highlighting strategies that mitigate environmental risks.

- Recognize the transformative potential of the bioeconomy, and contribute to discussions around policies that foster responsible behavior among citizens and drive companies to embrace cleaner production practices.

GREYSYS FOUNDATION | LAHORE, PAKISTAN LAHORE, PAKISTAN

Head ARYS Research Group & Greysys Foundation of CSR & Director

July 2017 - Present

- Champion pursuing academic excellence, fostering an atmosphere that promotes research, learning, and critical thinking. This enriches personal growth and contributes to the development of well-rounded global citizens.
- Take pride in leading the forefront of innovation by providing alternatives to traditional statistical methods. Our pioneering models, recognized in prestigious journals, exemplify our dedication to progressive research methodologies and advanced forecasting techniques.
- Spearheaded initiatives that embody corporate social responsibility (CSR), investing a proportion of our income annually into welfare, community services, and volunteerism. This reflects our commitment to alleviating poverty, fostering entrepreneurship, and cultivating an ethos of giving back.

DEPARTMENT OF MANAGEMENT SCIENCE, INTERNATIONAL ISLAMIC UNIVERSITY ISLAMABAD, PAKISTAN

Lecturer (Visiting)

March 2012 - June 2014

- Actively engaged in delivering high-quality lectures and academic content to students. Key role included facilitating an enriching learning experience that fostered critical thinking and subject mastery.
- Responsible for comprehensively conveying complex concepts and theories, ensuring students gained a solid foundation in management science. This involved adapting teaching methodologies to suit diverse learning styles.
- Participated in curriculum enhancement initiatives, collaborating with colleagues to align course content with the latest developments in the field.
- Led and engaged in academic support activities, such as organizing workshops, seminars, and discussion sessions. These efforts contributed to a holistic educational experience for students, enhancing their engagement with the subject matter.

DEPARTMENT OF QUALITY ASSURANCE, KOHINOOR | TEXTILE MILLS LTD. RAWALPINDI, PUNJAB PAKISTAN.

Assistant Manager

December 2012 - August 2016

- Played a critical role in ensuring all products met the highest quality and compliance standards. This involved implementing quality control measures, conducting inspections, and devising strategies to address deviations.
- Led a team and was entrusted with analyzing performance metrics to assess the effectiveness of quality assurance initiatives. Through data-driven insights, contributed to informed decision-making and continuous improvement efforts.
- Supervised and mentored a team of quality assurance professionals, fostering a culture of accountability, collaboration, and excellence.

EDUCATIONAL QUALIFICATIONS

Nanjing University of Aeronautics and Astronautics, China | Ph.D | 2016 - 2019

Management Science and Engineering-Focused on Corporate Social Responsibility, Sustainable Development, Integrated Management Systems, Energy Policy, and Grey Modeling with renowned researchers from the USA, Brazil, and Europe.

MBA International Islamic University Islamabad, Pakistan | 2010 - 2012

Management Science- First Class

BBA (Hons) University of Sargodha Business | 2006 - 2010

Business Administration | First Class

ACADEMIC SERVICE AND AWARDS

Members of several committees at AUI: Member of Academic Council; Chair of Research Committee; School of Business Administration representative for University Honor Program (UHP); Member of Quality Assurance Committee, Member of AACSB Accrediation Committee; Member of Management Committee; Supervisor of Capstone competition; Member of Business conferences & Seminars

Chapter Steering Committee (CSC) member Chapter Africa: UN PRME | December 2021 - Present

Emerald and EFMD Outstanding Doctoral Research Award judging panel | February 2022 - Present

Head ARYS Research Group Vice President of Greysys of CSR & Director (Industry-Academia Linkages) | January 2017 - Present

Reviewer of 100 international journals (Reviewed more than 500 articles | December 2018 – Present

AWARDS

[Ranked in the top 2% of the world's scientists - ranked by Elsevier BV Stanford University, USA](#)

[Best researcher of the year award -School of Business Administration, Al Akhawayn University in Ifrane](#)

[Best Professor of the Year \(Student Choice Award\)- School of Business Administration, Al Akhawayn University in Ifrane](#)

[List of top 10 Morocco's researchers listed by TopScientists](#)

Won full Chinese Government Scholarship- CSC Scholarship (PhD)

PROFILE BACKGROUND

Research Interest - Strategic Management, Sustainable Development Goals, Corporate Sustainability, Corporate Social Responsibility, Integrated Management System, Green Supply Chain Management; Environmental Management System; Sustainable Development Goals (SDGs); Energy Policy; Grey Modeling; Multi-Criteria Decision Making.

Teaching Portfolio – Business Policy and Corporate Strategy, Strategic Management, Global Markets, Business Sustainability and models, Responsible Management, Principle of Management, Environmental Sustainability & Integrated Management, Business Strategy, Organizational Behavior, Research Methods, Total Quality Management, Pedagogy and andragogy and Innovation management.

Research Impact - Google Scholar Citation: >5000 (since 2019) | H-index- 38; i10 index – 51

Teaching Interest - My teaching goal is facilitating students' learning and enjoyment in the classroom. Based on my diverse experience in teaching both engineering and management graduates. I acknowledge that my students are unlikely to be an accountant in the future. Therefore, I tailored my class to minimize the technical difficulty in the course, and I focused on how operations can be relevant to their future careers as business managers. Besides, instead of training my students to be preparers of process information, I focus on teaching them to be effective users of process information. This teaching approach helps to increase students' interest in the class, as they realize that a seemingly irrelevant subject can be valuable in their future managerial careers. Moreover, in the future planning to develop case-based studies more interactive through simulation and cases focusing on global Scenarios.

THESIS SUPERVISION (Master)

- Developing Green Technologies Strategies for Sustainable Investment in Morocco: an Integrated TWOS-Fuzzy AHP Approach
- Covid-19 And Voice & Accountability Effect On The 17 Sustainable Development Goals Performance In Morocco During Pandemic Period
- AI Adoption and Its Impact on Sustainable Development Goals (SDGs) in Morocco's Manufacturing Sector
- The Impact of Covid-19 on the Economic growth of the top 30 Innovative Countries
- Green Bonds and Green Technology: Analyzing the Influence of Economic and Environmental Factors in the MENA Region
- The impact of the Russia and Ukraine conflict on the Moroccan economy
- Exploring the influence of Green marketing on Brand loyalty and Electronic word-of-mouth: Applying the theory of planned behavior in the North African consumer market.
- The impact of Government Effectiveness on the Financial and Economic Performance of SDGs during a Pandemic in Morocco
- Investigating the impact of the adoption of EV market on the economical and environmental aspect.
- QES certifications on improvement of economic development in case of top 15 African countries
- The effect of change management on organizational performance.
- Moroccan investments in Sub Saharan Africa: opportunities and challenges
- The Impact of Industrial Growth on Green Growth in Morocco
- Prioritization of green management practice strategies using Fuzzy-Ahp in Hospitality Industry in Morocco
- Volkswagen Crisis Management And Response To The Dieselgate
- Intensifying effects of Covid-19 on environmental SDGs: evidence from North African countries
- The influence of flexible work arrangements on employee productivity.

CAPSTONE CPMPETITION SUPERVISION

- [Enabling Business Excellence with Artificial Intelligence \(AI\): A Blueprint for Multi-Dimensional Socio- Economic Growth in Morocco](#)

Supervised 17 innovative groups unveil cutting-edge business models, all seamlessly integrated with Artificial Intelligence. Witness the future of business and technology converge in Morocco. While each project had a unique fingerprint, here were the ones that stood out:

Best Innovative Business Model: **Sky Garden and Nafas.AI**

Best in Presentation: **Lbrikool**

Best in AI Integration: **Algoritmi.ma**

Best Overall: **Munch Mate**

- [AI Driven Solutions For Accelerating Progress on Sustainable Development Goals \(SDGs\): Focusing Morocco's Greatest Challenges](#)

Supervised 37 groups of capstone projects to explore the role of AI in advancing sustainable performance is both transformative and critical for future growth. All the groups of students have developed innovative solutions that harness AI's potential to drive excellence and growth in various business domains within Morocco. While each project had a unique fingerprint, here were the ones that stood out:

Best in Originality: **KhabIA**

Best in Presentation: **PiezSun**

Best in Financial Analysis: **Recycling Soaps**

Best in Marketing Strategy: **AI audiobooks**

Best in AI Integration: **Rouh**

Best in Sustainability: **Sykl**

Best in Global Expansion Potential: **Al-Lamssa**

Best Overall: **KhabIA**

- [Strategic Insights and Corporate Excellence: A Capstone Analysis of 22 Casablanca Stock Market Companies](#)

Supervised 22 groups under the theme "Strategic Insights and Corporate Excellence. In this project, each of the 22 capstone teams conducted an in-depth analysis of a Casablanca Stock Market company, examining everything from financial performance and competitive positioning to strategic management practices and market trends. By leveraging data analysis, industry research, and strategic frameworks, the teams drew meaningful conclusions about corporate excellence and identified key insights to drive growth and innovation. This collaborative journey not only honed the students' analytical and problem-solving skills but also showcased the transformative power of teamwork and strategic thinking.

Best capstone Award (overall): **Snep**

Best in Presentation: **Ctm**

Best in Analysis: **Unimer**

Best in Recommendations: **Jet Contractors**

LICENSES & CERTIFICATIONS (Most Recent)

- [Certified Management & Business Educator \(CMBE\) by Chartered Association of Business Schools \(CABS\), UK](#)

2024

The Certified Management & Business Educator (CMBE) gives business and management educators a recognised professional designation and a framework for continuous professional development. This recognition reflects my commitment to excellence in business education and dedication to continuous professional development.

- [The Future of Sustainable Business: Enterprise and the Environment \(Designed by University of Oxford\)](#) 2024

The course offered a comprehensive view of sustainability and sustainable business, packed with up-to-date information, innovative tools, and practical skills. It was a well-structured program that truly enriched my understanding of the global challenges and opportunities we face in building a sustainable future.
- [En-ROADS course. \(MIT Climate Policy Center\) at MIT Sloan School of Management and Climate Interactive](#) 2024

This course offers a powerful, user-friendly simulator to assess climate solutions across key sectors like energy, policy, and climate justice. It's incredible how this platform empowers people to see critical connections and make informed decisions to combat climate change. What excites me further is the potential for En-ROADS to integrate SDGs into its framework-tracking performance on SDG 7 (Affordable and Clean Energy), SDG 11 (Sustainable Cities and Communities), SDG 12 (Responsible Consumption and Production), SDG 13 (Climate Action), and SDG 15 (Life on Land). This could take climate action to the next level by aligning it with global sustainability goals.
- [United Nations Sustainable Development Cooperation Framework](#) 2024

This course consists of five modules designed to help participants understand and identify the requirements of the UNSDCF, which serves as the primary planning and implementation tool for UN development activities within countries. The UN Sustainable Development Cooperation Framework is a key instrument that provides coherent and strategic direction for UN development activities by all UN entities at the country level. This self-paced online course, jointly created by the UN Development Coordination Office and the UN System Staff College, equips participants with a comprehensive understanding of the application of the
- [Corporate Sustainability. Understanding and Seizing the Strategic Opportunity \(Università Bocconi\)](#) 2024

This course has provided me with the tools to reimagine business success in a way that creates value for all stakeholders, paving the way for a sustainable future. The learning journey delved into how businesses can navigate and capitalize on the opportunities presented by global challenges like climate change, inequality, and systemic inefficiencies.
